JOIN OUR TEAM

Dr. Tom Trigg
Superintendent

No matter whether your child is small or tall and no matter what colors they wear...

... there is one team standing behind them providing outstanding educational opportunities – the Blue Valley Educational Foundation.

For over 15 years, BVEF has supported and funded a truly astounding array of educational programs that have contributed to the delivery of an educational experience matched by few other school districts.

- **Grants of Excellence** for innovative teachers who bring materials and resources that provide the best delivery of district curriculum;
- **The Wilderness Science Center** where last year 6,000 Blue Valley students explored, observed and researched in 33 acres of forest, prairie and wetlands;
- **The BVEF Endowment** building a future legacy for all Blue Valley students today and tomorrow;
- **The Blue Valley Virtues** through the Sunflower Ambassador program, recognizing staff and students who exemplify strong character;
- **ACT/SAT preparation materials** to our high school students who achieved the highest overall test scores in the metropolitan area last year.

"I encourage you to JOIN OUR TEAM, the Blue Valley Educational Foundation Team."
